John L. Woodard, in Handbook of Assessment in Clinical Gerontology (Second Edition), 2010 Availability of Normative Data for Older Adults. A particular challenge facing the geriatric neuropsychologist is the relative dearth of normative data for older adults.

Halstead-Reitan Neuropsychological Battery - an overview

The distinction between sex and gender differentiates a person's biological sex (the anatomy of an individual's reproductive system, and secondary sex characteristics) from that person's gender, which can refer to either social roles based on the sex of the person (gender role) or personal identification of one's own gender based on an internal awareness (gender identity).

Sex and gender distinction - Wikipedia
