What is APA Referencing? APA style referencing (6th Edition) is a parenthetical author-date style, so you need to put the author's last name and the publishing date into parentheses wherever another source is used in the narrative. The latest edition consists of in-text citations and a reference list, along with rules for formatting the paper itself.

The reference ranges for your tests can be found on your laboratory report. They are typically found to the right of your results. If you do not have your lab report, consult your healthcare provider or the laboratory that performed the test(s) to obtain the reference range.

Helicobacter pylori (H. pylori) Testing - labtestsonline.org

A style guide or manual of style is a set of standards for the writing, formatting and design of documents. It is often called a style sheet, although that term may have other meanings. These standards can be applied either for general use, or be required usage for an individual publication, a particular organization, or a specific field.
