Title: Oracle Authorized Cloud Environments Author: Oracle Corporation Subject: The following Oracle programs are eligible for Authorized Cloud Environments per the policy document "Licensing Oracle Software in the Cloud Computing Environment"

Oracle Authorized Cloud Environments

Java is a general-purpose computer-programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers "write once, run anywhere" (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.
