Predatory open-access threatens the credibility of genuine open-access publishing, particularly in biomedical research. • Predatory journals retrieved in neuroscience and neurology are not listed in the DOAJ, Scopus and MEDLINE.

The surge of predatory open-access in neurosciences and

Neuroscience (or neurobiology) is the scientific study of the nervous system. It is a multidisciplinary branch of biology that combines physiology, anatomy, molecular biology, developmental biology, cytology, mathematical modeling and psychology to understand the fundamental and emergent properties of neurons and neural circuits. The understanding of the biological basis of learning, memory ...

Wilder Graves Penfield OM CC CMG FRS (January 26, 1891 – April 5, 1976) was an American-Canadian neurosurgeon. He expanded brain surgery's methods and techniques, including mapping the functions of various regions of the brain such as the cortical homunculus. His scientific contributions on neural stimulation expand across a variety of topics including hallucinations, illusions, and déjà vu.

ACS must receive a completed and signed Journal Publishing Agreement in order to publish a manuscript. Please take the time to read these instructions carefully and submit the appropriate form.

Forms and Instructions for the Journal Publishing Agreement

Submission Method A journals make the final published version of all NIH-funded articles available in PubMed Central (PMC) no later than 12 months after publication without author involvement. The start date shown for each journal is the earliest publication date that meets this requirement. Enter a journal name below to see if it uses Submission Method A.

Overview of optional Open Access. Through Oxford Open, authors of accepted papers are given the option of paying an open access publication charge to make their paper freely available online immediately via the journal website, meaning that readers will not need a journal subscription to view open access content. If an author does not choose to pay the open access publication charge, their ...
