Preamble Ethical background All human interaction, including the interaction involved in human research, has ethical

dimensions. However, 'ethical conduct' is more than simply doing the right thing. It involves acting in the right spirit, out of an abiding respect and concern for one's fellow creatures.

National Statement on Ethical Conduct in Human Research

LEARNING OBJECTIVES By the end of this chapter you will be able to: • Define the term descriptive epidemiology • Discuss types of descriptive epidemiologic studies and their uses • Describe the process of epidemiologic inference in the context
