

CLASS 10 FIRST TERM SAMPLE PAPER

class 10 first term pdf

In languages where functions are first-class citizens, functions can be passed as arguments to other functions in the same way as other values (a function taking another function as argument is called a higher-order function).

First-class function - Wikipedia

In programming language design, a first-class citizen (also type, object, entity, or value) in a given programming language is an entity which supports all the operations generally available to other entities. These operations typically include being passed as an argument, returned from a function, modified, and assigned to a variable.

First-class citizen - Wikipedia
