During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

The Release Pipeline. Last September we released Version 11.2 of the Wolfram Language and Mathematica —with all sorts of new functionality, including 100+ completely new functions. Version 11.2 was a big release. But today we've got a still bigger release: Version 11.3 that, among other things, includes nearly 120 completely new functions. This June 23rd it'll be 30 years since we ...

### **Roaring into 2018 with Another Big Release: Launching**

The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.

### **SuperMemo: Incremental learning**

PDF | Concrete structures are designed on the basis of 28 days cylinder crushing strength. 28 days cylinder strength actually represents the characteristic strength of the concrete. It is ...

### **(PDF) Predicting 28 Days Compressive Strength of Concrete**

The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.
