During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

Productivity improving technologies date back to antiquity, with rather slow progress until the late Middle Ages. Important examples of early to medieval European technology include the water wheel, the horse collar, the spinning wheel, the three-field system (after 1500 the four-field system—see Crop rotation) and the blast furnace. All of these technologies had been in use in China, some ...

An adorable origami dress card from How About Orange has been floating around Pinterest for a few weeks. I thought it was so much fun that I made a variation of it for this week's make-and-take at MLO. I cut 5 inch squares from thin scrapbook paper—a lot of scrapbook papers are too thick for origami, so make sure you find something not much thicker than copy paper.
