In sports, a choke is the failure of a sportsperson or team in a game in a situation where maintaining their performance is highly important. This can occur in a game or tournament that they are strongly favored to win, or in an instance where they have a large lead that they squander in the late stages of the event.

Bibliography. For reasons of space and convenience, the bibliography has been divided into three parts: The supplement Mental Imagery Bibliography is an extensive, but inevitably incomplete, bibliography of the science and philosophy of mental imagery. Many, but not all, of the works listed in it are discussed, or at least cited, in the main text of the entry, or in its supplements.

Mental Imagery (Stanford Encyclopedia of Philosophy)

This free course, Attachment in the early years, covers theory and research in the area of attachment in early childhood. In the 1950s, John Bowlby was the first person to develop a theory about the significance of early attachments between caregivers and very young children.
