The economic history of the United States is about characteristics of and important developments in the U.S. economy from colonial times to the present. The emphasis is on economic performance and how it was affected by new technologies, especially those that improved productivity, which is the main cause of economic growth. Also covered are the change of size in economic sectors and the ...

No issue ignited the partisan divide in postwar America more than the nationwide labor strikes of 1919-1921. The "labor vs. capital" battle pitted industrial workers who demanded higher wages in the postwar inflation economy against the industrialists who rejected unions as the product of foreign-inspired anarchist and Bolshevik (Communist) agitators.
